Statements of U. S. Steel
Head Analyzed by
Holland.

By MULLANN
Judge R. 10 (1877) chirman of the board of directors of the United States steel Corporation, reserved full and detailed exposition of his view respecting the attitude of the United States towards the world war until of the Linear States Steel Corporation to the United States towards the world war until states towards the world war until states offered. Upon Judge Gary's return from a short vacation to Alaaka during the hot weather, be did make a few brief statements and our national life depends upon the triumph of the United States and our national life depends upon the triumph of the United States and our national life depends upon the triumph of the United States and our national life depends upon the triumph of the United States and our national life depends upon the triumph of the United States and our national life depends upon the triumph of the United States and our national life depends upon the triumph of the United States and our national life depends upon the triumph of the United States and our national life depends upon the triumph of the United States and our national life depends upon the triumph of the United States and our national life depends upon the triumph of the United States and our national life depends upon the triumph of the United States and our national life depends upon the triumph of the United States and our national life depends upon the triumph of the United States and our allies also made at clear that he believes that the permanence of American institctions and our national life depends upon the triumph of the United States and our allies are the believed possible to the seasa fart the war is the out of the large three the war is ended. If this is to be secured, however, and the high program of the large three larges and the large three larges and the large three larges and the larges and the larges and the l

W. W. EASTERDAY & CO. Philadelphia Baltimote Washington Atlantic City Newark Richmond deal of discussion. Nevertheless, a rapid computation, which was made by some of the financial authorities after Judge Gary made this statement, shows that he was not far out of the way, if we take as a basis of the estimate the billions which the United States has found it necessary to secure in the first twelve months since entering the war.

Our Industrial Progress

abroad, at least 15,000,000 men. Some of those who have talked informally with Judge Gary have been persuaded that he is convinced that no matter how large an army we raise, it can be transported with comparatively small loss, if any, in spite of submarines across the Atlantic.

Can Raise \$100,000,000,000.

In addition to recruiting and thoroughly equipping an army of 15,000,000 men. Judge Gary told his Japanese friends that the United States could raise in three or four years \$100,000,000,000, and can do that without crippling the financial strength of the nation or interrupting her industrial progress. No one of the leading bankers who have given much study to the financial problems arising from the war has ventured to put the amount we may be compelled to raise at more than \$50,000,000,000 Judge Gary's intimate knowledge not only of industry but of finance, and the resources of the nation, make his estimate of

than \$50,000,000,000, Judge Gary's intimate knowledge not only of industry but of finance, and the resources of the nation, make his estimate of \$100,000,000,000, raised by the United States within three or four years. figures that have compelled a great emboddled in the so-called Webb bill, which if enacted into law will permit this as which if enacted into law will permit combinations of American exporters. In fact, Mr. Kies speaks of this as one of the pressing needs if we are to take advantage of the suddenly de-veloped and yet wonderful opportunity for holding and increasing our foreign commerce which the world war has

NEW YORK CURB MARKET.

New York, Oct. 4.—An influx of selling orders today created a lively interest in a large number of issues on the curb market. Interest was professional and declines were noticeable. Wright-Martin air shares in the industrial list were favorably affected.

points in the active positions.

A reaction of about 55 to 75 points from yesterday's high level appeared to bring in fresh buying, and the market was firm during the

Increased weakness developed in the last hour, with the decline extending to a matter of nearly 89 points at one time. The close was steady at a net decline of 45 to 17 points.

The receipts at the ports for the day were 21,038 bales, compared with 33,133 bales a week ago and 46,106 bales a year ago. Stocks in New York warehouses are 35,136 bales, against 66,138 bales a year ago.

No exports were reported for the day. Clearances for the season to date total 842,141 bales, compared with 270,661 bales in the corresponding period last season.

CHICAGO GRAIN.

Chicago, Oct, 4.—The management of today, and as the buying power was today, and as the buying power was today. Chicago, Oct. 4.-The markets for corn and

95% St. Louis receiving new corn which graded No. 81% 2 yellow, and which was offered at a decline of 25% cents.
195% Trade in oats was on a fairly liberal scale and 25% the buring was considered quite strong with 195% and the December 10 local and outside speco-25% lators. There were liberal deliveries of land on October contracts and the fact that this commodity was not well taken caused liquidation by holders. The demand was unimportant and it came mainly from aborts. Nearby riberts of the offerings scanty. Hogs were strong in all positions, but cash trade in products was lighter.

Sheep Trail-Pyramid Mines Company

This is not a prospect, it is a combination of properties which have produced over \$1,000,000 in high-grade ores, in all over 10 miles of mineralized veins have been traced out, opened in many places, and worked for the high-grade ores.

The report of the U. S. Geological Survey for 1909 covering operations in this district says (Bul. 397, p. 204-5-6), "The SHEEP TRAIL mine is developed to a depth of 428 feet, aggregating more than 5,000 feet of underground work-the ore is said to be rich." Several thousand tons of ore have been milled. Development work is now going on at the mines.

A telegram from the General Manager in September states: "Uncovered Katherine vein 300 feet N. E. of main shaft, taking large samples from 1 foot in width, average value \$10.32 per ton. Thirty feet more of this vein will have to be uncovered by tunneling before sampling completed. Before this stock is placed on the

New York Curb Market, subscriptions are now being received at Fifty (50) Cents per share, when, as and if As this offering is limited, it is sub-

ject to withdrawal without notice.

The Mexican Problem

BY

C. W. Barron Author of "THE AUDACIOUS WAR"

In 1914 Mr. Barron went to Europe soon after the breaking out of the War, to find its causes and probable duration. His book "The Audacious War" was the first to clearly set forth the Hohenzollern ambitions and the world peace that must ultimately result from their defeat.

When the Allies' fuel oil base in Mexico seemed endangered Mr. Barron went to Tampico to investigate the

oll situation. He found a larger problem and devoted himself to a study of the question of what would redeem Mexico. The result is his book "The Mexican Problem." Don't miss the strong poem, the clear foreword and the illuminating introduction of Dr. Talcott Williams, From these you will learn history and the causes of all .

wars as you never found them set forth elsewhere.

Extracts from a Few of Many Facts and Principles Taken Letters of Commendation. "The Mexican Problem is, to

my thinking, worth its weight in gold—of all recent books the best by many degrees."

"Since reading Mr. Barron's impressions of Mexico are removed."

book, I am conscious of a moved. larger sympathy with the people in Mexico, and of a conviction that they are more worthy of saving, of redemption, than I had supposed. One cannot help feeling glad to know that there is so much more real good in them than previously supposed."

previously supposed."

"The book conveys to the reader a knowledge of Mexico and the needs of its people in a way not heretofore adopted by any others attempting to give information on the subject.

"That is the need of Mexico today—opportunity for the family, opportunity for food, clothing, better shelter, and better social conditions.

And this is exactly what American and European capital and organization have brought to Tampico, attracted by its underground wealth, and

"In fact, the whole book is a compendium of terse, trenchject. ant and sententious wisdom on people by industrial opportu-the Mexican Problem."
